To Whom It May Concern:

Kelsea Wall worked for Junior Learning for the past two years as a Creative Technologist.

I was very impressed with the job Kelsea did and the skill set that he brought to Junior Learning. Kelsea is trained in 3D modelling and produced numerous toy samples for us in house on a 3D printer, before sending models and CAD drawings to China for mass production.

Kelsea is also skilled in Adobe Suite and worked diligently on numerous book titles. Here, she worked on artwork, type set, aligned pages, as well as proofed and prepared packaging. Kelsea was also actively involved with our marketing team in preparing various collateral.

Everyone loved having Kelsea in the office. She has a great sense of humor and instantly made friends with the other staff. She worked on a number of projects with the other staff as well as special projects on her own. Importantly, Kelsea was diligent in her file organization and protocol.

We already miss Kelsea and we wish her all the best for her future. Please feel free to contact me regarding a verbal reference if required.

Yours faithfully,
